CONFERENCE PROGRAMME

Change is a recurring theme in private wealth today, with legal, fiscal, regulatory and geopolitical developments challenging how clients and their advisers manage and protect wealth both now and with an eye to the future. That change, and the uncertainty that it brings, have become constant and pervasive. The STEP Benelux Conference 2019 will bring attendees up to speed on the latest events in wealth management and advise and explore ways to navigate the sometimes precarious environment in which we now live and work.

Following the highly successful inaugural STEP Benelux Conference in 2017, this year's conference brings together a cross-section of international expert speakers and panellists from politics, international relations, the judiciary, financial services, and the legal and tax advisory professions. Join us on 10 - 11 October in Luxembourg (the Eurozone's largest financial centre) to be part of the future of private wealth.
